

Education for SDGs: Full course on 17 SDGs covering all programs. June-August 2020

Students of all programmes during their freshmen years takes a full course tackling all 17 UNSDGs. The course CWTS103 was designed to discuss each SDGs with a final requirement to render community outreach. The course consisting of micro-lecture videos, readings and assessments were delivered synchronous and asynchronously via Mapua Cardinal Edge blackboard.

Community Conference 2020

The Mapua University again hosted a Community Conference last November 11, 2020. Dubbed as “Perfect Vision @ 2020 in Attaining UN SDGs”, Mapua University tapped the different barangays in Pandacan, Manila to discuss and assist the barangay officials on how to implement activities that will contribute to the realization of the UN SDGs.

The pandemic situation was not a hindrance to the objective of the University to strengthen its partnership commitment with the community. Despite the health and safety protocols being implemented in the country, the ComCon 2020 was able to achieve its purpose in reaching out to the community and help them draft project proposals that are feasible and significant.

Online Portal for Educational Resources

April 2020

Students created educational videos of Math and Science related topics which can be accessed by the public through an online portal. The portal can be used also by NGOs to promote their online resources.

Photo (top) shows a screenshot of a Mathematics lesson created by students. Below photo is a Science video also made by students.
