

Vitamins and Supplements for Children and Senior Citizen

Long before the pandemic, SOCIP-Mapua has been providing medical assistance to its partner communities which includes among others, providing vitamins and supplements for children and senior citizens.

Following health safety protocols set forth by the government, SOCIP-Mapua continues its commitment on its initiative on the aspect of health care. Last 04 May 2021, forty-three (43) barangays in Pandacan (Manila) were given sets of vitamins and supplements to support the most vulnerable people in the community; the children and senior citizens. These were distributed with the help of barangay officials and personnel. *(Details of activity can be viewed via facebook of each partner community)*

Brgy. 860 of Pandacan, Manila, assisted Mapua in distributing the vitamins and maintenance medicines to all barangays in Pandacan.
