

# Onsite Lifelong Learning Activities for the Community 2019

MAPUA  
UNIVERSITY

## Seminar on Indoor-Outdoor Plants on Ornamental Plants

A faculty of the School of Architecture, Industrial Design and the Built Environment together with some students went to Gawad Kalinga in Dasmariñas, Cavite. The seminar was a presentation of topics about Indoor and Outdoor plants about its benefits and how it can be used to beautify the house.

The discussion also focused on the importance of plantscape and landscape in mitigating room temperature, air purifying function and psychological benefits. Furthermore, basic principles and elements of design as applied in the design of potted plants that will aid the community in the beautification of the interior and exterior environment.

## Self-Defense and Combat Training Seminar

Students, administration staff and faculty members of St. Paul University were given a free seminar on Street Crisis Management on February and March 2019. The activities aimed to teach the participants the basic skills on self-defense like basic disarming techniques and arnis techniques.

The training was a special request made by the St. Paul University administration after they had learned that Mapua University has been offering seminars and trainings as part of its outreach program.

# Learning is Easy in Mathematics and Science

April and July 2019

Mapua students under the Civic Welfare Training Service conducted tutorial sessions in the fields of Science and Mathematics for the children in the community. With the aim to improve the skills and teach new learning techniques to the children, set of Mathematical and Science lessons and activities were given to the children.

# Interactive Science Demos for the Children in the Community

April 2019

To make Science lessons fun and exciting, students of Mapua University conducted interactive demonstrations on different Science experiments for the children in the community. The activity stirred the interest of the children and provided them a good learning style in understanding Science as a subject in school.

Top photo shows the Mapua students explaining the experiment to the kids. Bottom photo shows a kid doing the actual experiment with the help of a Mapua student.

# Onsite Lifelong Learning Activities for the Community 2020

## Seminar on Practical Disaster Preparedness for Residential Communities

A faculty of the School of Architecture, Industrial Design and the Built Environment together with some students went to Gawad Kalinga in Dasmariñas, Cavite to conduct a seminar on Practical Disaster Preparedness. The activity was attended mostly by housewives in the community.

The discussion focused on relevant proactive approaches in ensuring safety at homes in the advent of seasonal typhoons, fire and epidemics.

Photo on the upper left shows the faculty and students of Mapua. Photos below show the participants attending the seminar.

## ISO 9001:2015 Preparedness for National Privacy Commission

The School of Industrial Engineering and Engineering Management through one of its faculty members was tapped by the National Privacy Commission to prepare the office for the aspired ISO 9001:2015 certification.

Mr. Fantillo who has a consulting practice on process management facilitated the seminar for the employees of NPC. The output initiatives were: 1) Provide NPC the necessary framework and methodology on how to implement the ISO pillars towards certification; 2) Provide situation examples that can be used as models for NPC's aspirations; and 3) Equip NPC with the knowledge on SIPOC and process narratives.
