

2019 International Symposium on Water and Sediments Quality

Date: August 15-16, 2019 | 8:30 AM - 5:30 PM
Venue: RLab 3, Yuchengco Innovation Center, Mapúa University, Manila, Philippines

The *Taiwan-Philippines Water Quality Research and Innovation Center (TP-WRIC)* is organizing an International Symposium on Water and Sediments Quality. This is in cooperation with *Office of International Linkages for Research and Development (ILRAD)* and *Resiliency and Sustainable Development Center (RSDC)* of Mapúa University. This is to discuss the most recent innovations and exchange of knowledge on strategies for providing solutions on water and sediments quality related concerns.

The objective of this symposium is to foster research linkage and cooperation among research institutions. This will also provide a multi-disciplinary platform for researchers and scientists as well as industry experts who have interest in the areas of water and sediments quality. It is expected that this event will lead to the establishment of the research cooperation and development of solutions to key environmental challenges.
